## DETAILED ACTION

### *Election/Restrictions*

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group 1, claim(s) 1-4, 24-27, as well as (1-4 and 24-27)/21 and (1-4 and 24-27)/44, drawn to calculating effective patent ratios.

Group 2, claim(s) 5-20, 22, 23, 28-43, 45, 46, as well as (5-20, 22, 23, 28-43, 45, 46)/21 and (5-20, 22, 23, 28-43, 45, 46)/44, drawn to calculating patent stock index based upon remaining patent term.

2. The inventions listed as Groups 1 and 2 do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

The claims of Group 1 relate to the calculation of specific values regarding a group of patents and/or patent-related documents, the effective patent ratio, as well as variants thereof.

The claims of Group 2 relate to the calculation of different specific values regarding a group of patents and/or patent-related documents, the patent stock index based upon remaining patent term, as well as variants thereof.

The two distinct calculation operations do not share any special technical feature which defines the contribution which each respective claimed invention, considered as a whole, makes over the prior art. As such, the groups lack unity of invention.

3. A telephone call was made to attorney Jeffrey R. Filipek (202) 721-8200 on 23 January 2009 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim

Art Unit: 2167

remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
